YEAR IN REVIEW

A Year of Refinement and Impact

2025

Creating opportunities to serve
communities across our
three mission areas.

A YEAR OF FOCUS AND PREPARATION

2025 marked a pivotal year for the Erik Jones Foundation. Following Erik's recognition as the Comcast Community Champion, the Foundation focused on strengthening the systems that support long-term impact.

"When I started the Erik Jones Foundation, my hope was simple: to use the opportunities I've been given to make a meaningful difference in the lives of others.

This work has never been about one person. It is about the supporters, volunteers, partners, and donors who invest their time, resources, and hearts into helping others. Because of you, children are discovering the joy of reading, families are receiving support during difficult moments, and animals are finding care and second chances.

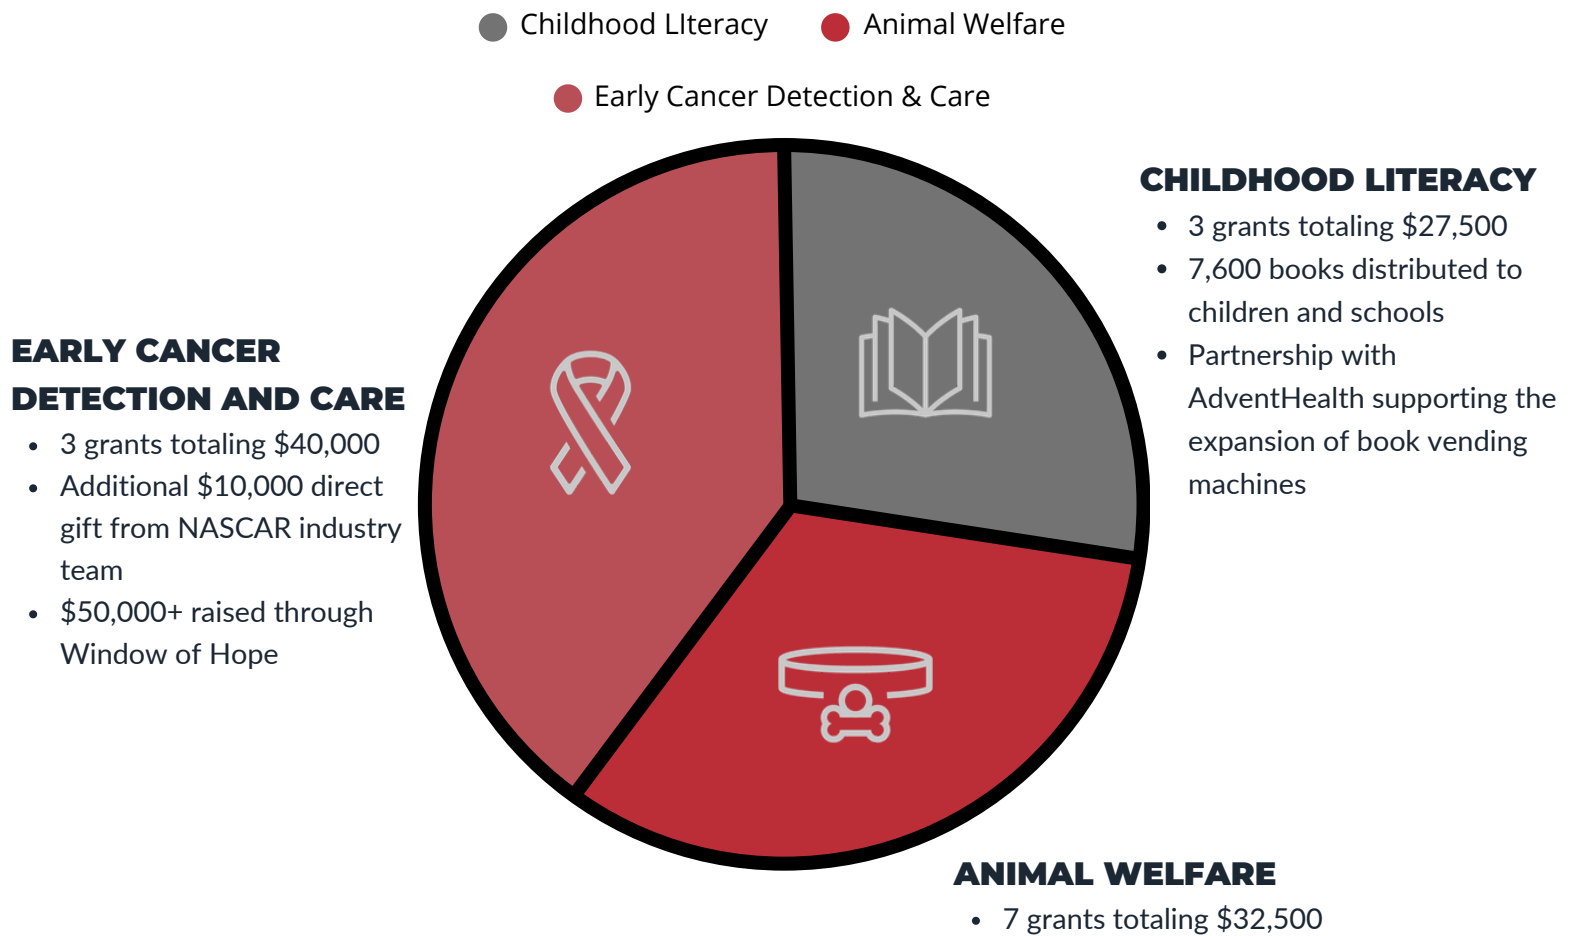

As I look back on 2025, I see a year of growth, but also a year of preparation. We strengthened our organization, welcomed new volunteers and partners, and expanded our ability to serve communities in meaningful ways.

None of this happens without people who believe in our mission. Whether you donated, volunteered, sponsored an event, or shared our story, you are part of every success highlighted in these pages. On behalf of my family, our Board of Directors, and everyone involved with the Erik Jones Foundation, thank you for your trust, generosity, and belief in our mission."

IMPACT IN ACTION

This year, one of our animal welfare partners shared the story of Bruno, a dog whose future depended on timely care, compassion, and the resources to act quickly.

Through the support of the Erik Jones Foundation, Bruno received the care he needed and was given a second chance.

Animal welfare is not abstract. It is about individual lives, second chances, and the people who step in when it matters most.

Every grant helps create outcomes like this.

KEEPING BOOKS IN THE HANDS OF CHILDREN

In 2025, the Erik Jones Foundation stepped in to help sustain the Dolly Parton Imagination Library program in Shiawassee County after critical state funding for the program was eliminated. The Foundation provided a \$20,000 grant, along with support from several other local partners to help ensure the program could continue.

The program provides free, high-quality books each month to children from birth through age five, helping families build early reading habits and a lifelong love of learning. When funding was lost, nearly 1,900 children in the community were actively enrolled in the program.

The Foundation's support helped ensure that books would continue arriving across the county, particularly in rural communities where book access can be limited.

More than a literacy initiative, the program strengthens family connections through shared reading experiences and creates excitement around learning at an early age. Through this investment, the Erik Jones Foundation helped preserve an important resource in Erik's home community.
